

Autoliv Expands in Indonesia

(Stockholm, December 5, 2012) – – – To meet its strong order intake in Asia, Autoliv Inc. – the global leader in automotive safety systems – has opened a new seatbelt plant in Cibitung near Jakarta, Indonesia. The new plant will enable the Company to grow its sales in Indonesia from \$12 million last year to \$25 million by 2015 in already booked business and to \$50 million when the plant will be fully utilized.

The plant will replace the Company's existing Indonesian plant and serve Toyota, Daihatsu and Nissan, Autoliv's main customers in Indonesia.

The new plant has a floor space of nearly 2,500 square meters (sqm) on a land plot of 11,000 sqm and, at the start, 170 employees. All of the employees will be transferred from Autoliv's existing Indonesian plant. The capital expenditures for the new plant amount to \$3 million.

Light vehicle production in Indonesia is expected to grow by more than 20% this year to almost one million vehicles. Indonesia with 240 million people is one of the fastest growing economies in Asia. Autoliv entered the Indonesian market in 2002.
