

Autoliv becomes a Signatory of United Nations Global Compact

(Stockholm, Sweden, 3 May, 2019) – Autoliv, Inc. (NYSE: ALV and SSE: ALIVsdb), the worldwide leader in automotive safety systems, becomes a Signatory of United Nations Global Compact.

Global Compact is the world's largest corporate sustainability initiative, calling companies to align strategies and operations with universal principles on human rights, labor, environment and anti-corruption, and take action that advance societal goals. Today, almost 10,000 companies in 162 different countries around the world have joined the initiative.

UN Global Compact supports companies to do business responsibly by aligning their strategies and operations with Ten Principles on human rights, labor, environment and anti-corruption. It also encourages participants to take strategic actions to advance broader societal goals, such as the UN Sustainable Development Goals, with an emphasis on collaboration and innovation.

Autoliv's work supports the UN Sustainable Development Goal #3: Good health and well-being, and its target of halving global deaths and injuries from road traffic accidents by 2020. Our sustainability commitment and supporting policies are aligned with the ten principles of Global Compact for responsible business. We will report on our progress in implementing the ten principles of the Global Compact and advancing broader societal goals as part of our annual Sustainability Report.

"Signing the Global Compact demonstrates Autoliv's commitment to sustainable development for our key stakeholders and our participation in the Global Compact network also provides valuable learning opportunities and resources to us which we can leverage to reach our sustainability goals," states Kaisa Tarna-Mani, Autoliv Vice President, Sustainability.
